Shade Sails

Shade sails allow us to enjoy the Indian outdoors and sunshine. They are so effective that they can use for Garden, Open lawns ,Car parking ,Open Cafeteria ,schools, kindergartens, and corporations. Shade sails have become a part of our way of life. Choosing the right kind of shade sail is very important. Sail + Shade will custom design the right shade sail for your outdoor area.

Why Use Shade Sails?

Shade sails are excellent affordable alternatives to gazebos, patio covers, and pergolas. They provide protection from harsh UV rays, require minimal maintenance and are very durable. Shade sails (also called shade canopies or sun shelters) are perfect for outdoor activities like picnics, barbecues, and sheltered play area. Shade sails make for useful and beautiful outdoor protection in your home. We offer a wide variety of shade sail solutions for your home.

Custom Designed

Shade sails are custom designed to suit your specific needs. We consider the prevailing wind in your location before we select cloth and fittings for your shade sail structure. The fabrics we use are commercial grade and have 10-year warranties against degradation from the sun's UV rays.

Where are shade sail systems used?

Backyards, barbeque and entertainment areas

Patios, verandas and landings

Playgrounds and pre-schools

Pool areas and parks

Outdoor rotundas and amphitheatres

Yacht, golf and recreation clubs

Resorts and country clubs

Many other outdoor locations across India.

Strong fabrics

We make use of only the best tension shade fabrics that are available in the market today - all of them are made by a reputable manufacturer. We offer a wide range of colour swatches and types of fabrics to choose from.

Great design

We can make a custom designed shade sail set for you, we also have a wide variety of ready-made shade sails to choose from.

Fittings

Using stainless steel fittings is very sensible because they will last exceptionally well in outdoor conditions to ensure your shade sail stays securely anchored to its attachment points.
